## **DETAILED ACTION**

## Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim(s) 1-5 and 8-12, drawn to a method of using a compound of an Interleukin receptor antagonist (IL-1Ra) for the treatment or prophylaxis of type 2 diabetes in a mammal.
- Group II, claim(s) 6-7 and 13-14, drawn to a method of using a compound of a pyrrolinidedithiocarbamate (PDTC) for the treatment or prophylaxis of type 2 diabetes in a mammal.

The examiner has interpreted the terms "use of an Interleukin 1 receptor antagonist" in claim 1 as a compound for the preparation of a medicament for the treatment or prophylaxis of type 2 diabetes in a mammal.

In addition, the examiner has interpreted the terms "the use of pyrrolinidedithiocarbamate (PDTC) in claim 6 as a compound for the preparation of a medicament for treatment or prophylaxis of type 2 diabetes in a mammal.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

According to PCT Rule 13.2, unity of invention exists only when the shared same or corresponding technical feature is a contribution over the prior art. The inventions listed as

Application/Control Number: 10/517,450

Art Unit: 1647

Groups I-IV do not relate to a single general inventive concept because they lack the same or

corresponding technical feature.

Claim 1 is directed to a compound of an Interleukin receptor antagonist (IL-1Ra) for the treatment or prophylaxis of type 2 diabetes in a mammal. Giannoukakis et al. (Diabetes, 1999, Volume 48, pages 1730, abstract) teach the Interleukin-1 receptor antagonist protein for the prevention and treatment of insulitis and the consequent pathogenesis of diabetes. The prior art meets the limitations disclosed in claim 1. Thus Group I lacks novelty or inventive step and does not make a contribution over the prior art. Since the first claimed invention has no special

Under PCR Rule 13.1, the application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept.

technical feature, it cannot share a special technical feature with the other claimed invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

## Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ian Dang whose telephone number is (571) 272-5014. The examiner can normally be reached on 9am to 5pm.

Application/Control Number: 10/517,450

Art Unit: 1647

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on (571) 272-0961. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
